

ENPLATER GROUP POLICY

REG-1101-003

REV.: 7

ENPLATER GROUP's highest management, aware of the need to continuously improve to adapt to the demands of a constantly evolving market, has taken on a commitment to:

- Producing printed or non-printed flexible film structures in reels or bags for manufacturers, packers and distributors of packaged products which meet their requirements and needs.
- Having all the processes integrated and having the most advanced technology on the market to continue growing in new technologies and expand the product catalogue to improve the group's competitiveness.
- Keeping an integrated management system updated, including quality and hygiene management, preservation of the environment and occupational health and safety.
- Avoiding the intentional use of any non-conforming product that may cause a danger to consumers.
- Using optimized and safe processes to prevent damage and deterioration of employee health.
- Using processes and products which avoid or minimize environmental impacts
- Fulfilling legal requirements applicable to the company's activity and other requirements signed by the company itself.
- Providing training, motivation and the necessary resources to continuously improve the effectiveness and efficiency of the organization's processes.

The review, the correction and the assurance of compliance with this commitment, represents the continuous improvement of the integrated management system and is a strategic factor in the company's development.

Only with the involvement and effort of all the members of the organization we will achieve these commitments.

This policy is understood, implemented and disseminated at all levels of the organization and has the full commitment and support of ENPLATER GROUP's Management.

Josep Garganta (Manager)
